

Recycling Guidelines

- There is no garbage collection at the recycling locations.
- Do not leave garbage, “Free” items or other non-recyclable items.
- Do not place bags containing recyclables in the bins. Remove the items from the bags.
- **ITEMS ACCEPTED FOR RECYCLE**
 - **Cardboard** – Flattened/broken down cardboard only. No plastics, Styrofoam or other packing materials.
 - **White Paper** – Includes printer paper, newspaper and packing paper. We cannot accept neon paper.
 - **Aluminum Cans** – Only aluminum cans are accepted in the aluminum bins. Do not place other forms of aluminum or tin in the aluminum bins.
 - **Plastics** – Plastics marked #1 & #2 only. All containers need to be rinsed out and cannot include caps or lids. Milk jugs, soda bottles, detergent jugs and water bottles are examples of these items. You will find the recycle # on the bottom or near the bottom of these plastic containers. These are the ONLY items to be placed in the plastic bins. No paper bags, plastic bags, garbage or plastic containers marked with #3 - #7.
- Contaminated bins will be disposed of as garbage. Please be aware of these guidelines and what you are placing in the bins to prevent this from happening. Your cooperation is appreciated and will contribute to the continuation of the recycling program in Valley County.
