C.U.P. 20-18

A detailed project description disclosing the purpose, strategy, and time frame of construction. Include a phasing plan if appropriate.

I do not have a project description; we use the property to park our Motor Home and our kids camp trailers. We park the RVs on the lot usually late May and usually remove them in late September. They are used occasionally on weekends and holidays. They are seldomly all occupied at the same time. There will be no construction on this property.

A plot plan, drawn to scale, showing the boundaries, dimensions, area of lot, existing and proposed utilities, streets, easements, parking, setbacks, and buildings.

I have included a plot plan drawn to scale. I have shown where the power is and the sewer on the property. There are no buildings on the property. As for parking cars, we just park anywhere on the property.

A landscaping plan, drawn to scale, showing elements such as trees, shrubs, ground covers, and vines. include a plant list indicating the size, quantity, location and name (both botanical and common) of all plant material to be used.

We do not have a landscape plan, it is all-natural trees and groundcover.

A site grading plan clearly showing the existing site topography and detailing the best management practices for surface water management, siltation, sedimentation, and blowing of dirt and debris caused by grading, excavation, open cuts, side slopes, and other site preparation and development.

There will be no grading on the property.

A lighting plan.

There is no lighting plan, the only lighting will come from the RVs.

Conditional Use Permit Application

TO BE COMPLETED BY THE PLANNING AND ZONING DEPARTMENT FILE #	FEE \$ 50 -
ACCEPTED BY	DEPOSIT \$
CROSS REFERENCE FILE(S):	DATE 6-27-2020
PROPOSED USE:	
When an application has been submitted, it will be reviewed in order to do A hearing date will be scheduled only after an application has been accepted as Applicant's Signature:	etermine compliance with application requirements. complete or if applicant requests the hearing in writing. Date: 6-29-20

The following must be completed and submitted with the conditional use permit application:

- A <u>detailed project description</u> disclosing the purpose, strategy, and time frame of construction. Include a phasing plan if appropriate.
- ❖ A <u>plot plan</u>, drawn to scale, showing the boundaries, dimensions, area of lot, existing and proposed utilities, streets, easements, parking, setbacks, and buildings.
- A <u>landscaping plan</u>, drawn to scale, showing elements such as trees, shrubs, ground covers, and vines. Include a plant list indicating the size, quantity, location and name (both botanical and common) of all plant material to be used.
- ❖ A <u>site grading plan</u> clearly showing the existing site topography and detailing the best management practices for surface water management, siltation, sedimentation, and blowing of dirt and debris caused by grading, excavation, open cuts, side slopes, and other site preparation and development.
- A lighting plan.
- Names and addresses of property owners within 300 feet of the property lines. Information can be obtained through the Assessor's Office. Only one copy of this list is required.
- ❖ <u>Ten (10) copies</u> of the application, project description, plot plan, landscaping plan, grading plan, and impact report are required.

We recommend you review the Valley County Codes online at www.co.valley.id.us/planning-zoning or at the Planning & Zoning Office at 219 North Main Street, Cascade, Idaho

Subject to Idaho Statute 55-22 Underground Facilities Damage Prevention.

C.U.P Number:		
	vailable to it water rights available to it. If dry, p ning & Zoning Department as part	_

Idaho Code 31-3805 states that when all or part of a subdivision is "located within the boundaries of an existing irrigation district or canal company, ditch association, or like irrigation water deliver entity ... no subdivision plat or amendment to a subdivision plat or any other plat or map recognized by the city or county for the division of land will be accepted, approved, and recorded unless:"

- A. The appropriate water rights and assessment of those water rights have been transferred from said lands or excluded from an irrigation entity by the owner; or
- B. The owner filing the subdivision plat or amendment to a subdivision plat or map has provided for the division of land of underground tile or conduit for lots of one acre or less or a suitable system for lots of more than one acre which will deliver water to those land owners within the subdivision who are also within the irrigation entity with the appropriate approvals:
 - 1. For proposed subdivisions located within an area of city impact, both city and county zoning authorities must approve such irrigation system in accordance with 50-the irrigation system.
 - For proposed subdivisions outside of negotiated areas of city impact, the delivery system
 must be approved by the Planning and Zoning Commission and the Board of County
 Commissioners with the advice of the irrigation entity charged with the delivery of water to
 said lands.

To better understand your irrigation request, we need to ask you a few questions. A list of the map requirements follows the short questionnaire. Any missing information may result in the delay of your request before the Planning and Zoning Commission and ultimately the approval of your irrigation plan by the Board of County Commissioners as part of final plat approval.

1.	Are you within an area of negotiated City Impact?	Yes	No	
2.	What is the name of the irrigation and drainage entite Irrigation: Drainage:			
3.	How many acres is the property being subdivided?			
4.	What percentage of this property has water?		<u>.</u>	
5.	How many inches of water are available to the prope	erty?		
6.	How is the land currently irrigated? $\ \square$ surface	sprinkler		irrigation well
		\square above ground pipe		underground pipe
7.	How is the land to be irrigated <u>after</u> it is subdivided?			
	□ surface	sprinkler		irrigation well
		above ground pipe		underground pipe
8.	Please describe how the head gate/pump connects t	to the canal and irrigated l	and a	and where ditches &/or pipes go.
9.	Is there an irrigation easement(s) on the property?	☐ Yes ☐ No		
10	. How do you plan to retain storm and excess water	on each lot?

Irrigation Plan Map Requirements

structu	res and easements. Please include the following information on your map:
	All canals, ditches, and laterals with their respective names.
	Head gate location and/or point of delivery of water to the property by the irrigation entity.
	Pipe location and sizes, if any
	Rise locations and types, if any.
	Easements of all private ditches that supply adjacent properties (i.e. supply ditches and drainage ways).
	Slope of the property in various locations.
	Direction of water flow (use short arrows on your map to indicate water flow direction ->).
	Direction of wastewater flow (use long arrows on your map to indicate waste water direction
	Location of drainage ponds or swales, if any where wastewater will be retained on property
	Other information:
Also, p	rovide the following documentation:
	Legal description of the property.
	Proof of ownership.
	A written response from the irrigation entity and/or proof of agency notification.
	Copy of any water users' association agreement currently in effect which shows water schedules and maintenance responsibilities.
	Copy of all new easements ready for recording (irrigation supply and drainage).
	If you are in a city area of impact, please include a copy of the approvals by the city planning and zoning commission and city council of your irrigation plan.
	======================================
	ndersigned, agree that prior to the Planning and Zoning Department accepting this application, I am responsible all the required information and site plans.
	er acknowledge that the irrigation system, as approved by the Planning and Zoning Commission and ultimately ard of County Commissioners, must be <u>bonded</u> and/or <u>installed</u> prior to the recording of the plat or building .
Signed:	
	Applicant / Property Owner (Application Submitted)

The irrigation plan must be on a scalable map and show all of the irrigation system including all supply and drainage

VALLEY COUNTY

WEED CONTROL AGREEMENT

The purpose of this agreement is to establish a cooperative relationship between Valley County and the undersigned Cooperator to protect the natural and economic values in the Upper Payette River watershed from damages related to the invasion and expansion of infestations of noxious weeds and invasive plants. This is a cooperative effort to prevent, eradicate, contain and control noxious weeds and invasive plants on public and private lands in this area. Factors related to the spread of weeds are not related to ownership nor controllable at agency boundaries. This agreement formalizes the cooperative strategy for management of these weeds addressed in Valley County's Integrated Weed Management Plan.

In this continuing effort to control Noxious Weeds, Valley County Weed Control will consult with the undersigned Cooperator and outline weed identification techniques, present optional control methods and recommend proper land management practices.

The undersigned Cooperator acknowledges that he/she is aware of any potential or real noxious weed problems on his/her private property and agrees to control said weeds in a timely manner using proper land management principles.

COOPERATOR

IMPACT REPORT (from Valley County Code 9-5-3-D)

You may add information to the blanks below or attach additional sheets.

- ❖ An impact report shall be required for all proposed Conditional Uses.
- The impact report shall address potential environmental, economic, and social impacts and how these impacts are to be minimized as follows:
- 1. Traffic volume, character, and patterns including adequacy of existing or proposed street width, surfacing, alignment, gradient, and traffic control features or devices, and maintenance. Contrast existing with the changes the proposal will bring during construction and after completion, build-out, or full occupancy of the proposed development. Include pedestrian, bicycle, auto, and truck traffic. Occasional Hraffic, Some weekends and holi clays
- 2. Provision for the mitigation of impacts on housing affordability. None
- Noise and vibration levels that exist and compare to those that will be added during construction, normal activities, and special activities. Include indoor and outdoor, day and night variations.

 None
- 4. Heat and glare that exist and that might be introduced from all possible sources such as autos in parking areas, outdoor lights, water or glass surfaces, buildings or outdoor activities.

 None
- 5. Particulate emissions to the air including smoke, dust, chemicals, gasses, or fumes, etc., both existing and what may be added by the proposed uses.

Occasional smoke from camp fire.

7. Fire, explosion, and other hazards existing and proposed. Identify how activities on neighboring property may affect the proposed use.

None

8. Removal of existing vegetation or effects thereon including disturbance of wet lands, general stability of soils, slopes, and embankments and the potential for sedimentation of disturbed soils.

None

9. Include practices that will be used to stabilize soils and restore or replace vegetation.

None

10. Soil characteristics and potential problems in regard to slope stability, embankments, building foundation, utility and road construction. Include suitability for supporting proposed landscaping.

None

11. Site grading or improvements including cuts and fills, drainage courses and impoundments, sound and sight buffers, landscaping, fencing, utilities, and open areas.

None

12.	Visibility from public roads, adjoining property, and buildings. Include what will be done to reduce visibility of all parts of the proposal but especially cuts and fills and buildings. Include the affect of shadows from new features on neighboring property. $Nonc$
13.	Reasons for selecting the particular location including topographic, geographic and similar features, historic, adjoining land ownership or use, access to public lands, recreation, utilities, streets, etc., in order to illustrate compatibility with and opportunities presented by existing land uses or character. $None$
14.	Approximation of increased revenue from change in property tax assessment, new jobs available to local residents, and increased local expenditures.
15.	Approximation of costs for additional public services, facilities, and other economic impacts.
16.	State how the proposed development will impact existing developments providing the same or similar products or services. None
17.	State what natural resources or materials are available at or near the site that will be used in a process to produce a product and the impacts resulting from the depletion of the resource. Describe the process in detail and describe the impacts of each part. None

18. What will be the impacts of a project abandone	d at partia	I completion?
None		

19. Number of residential dwelling units, other buildings and building sites, and square footage or gross non-residential floor space to be available.

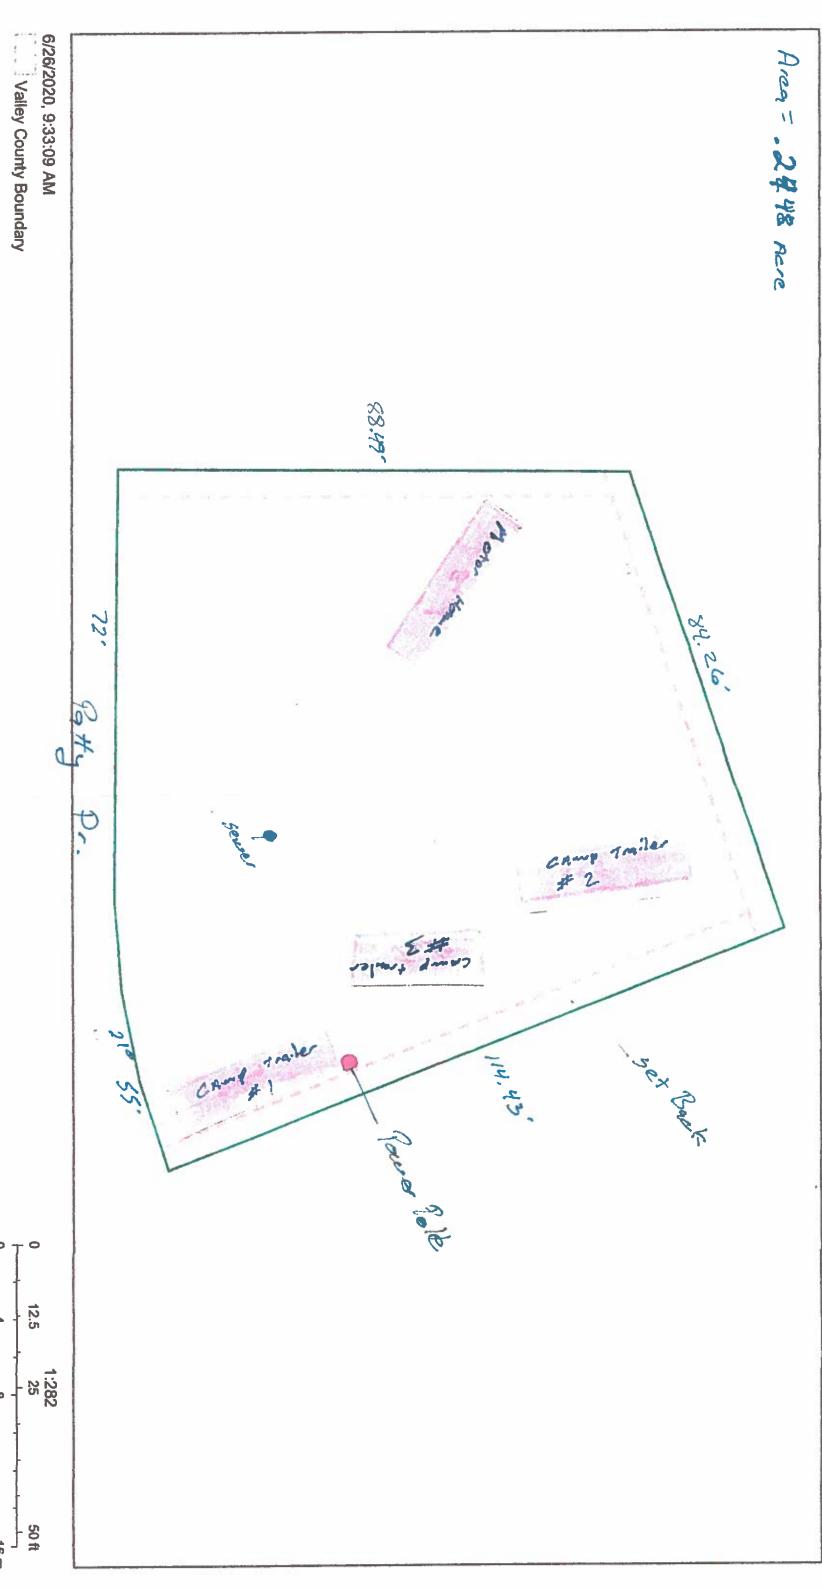

None

20. Stages of development in geographic terms and proposed construction time schedule.

None

21. Anticipated range of sale, lease or rental prices for dwelling units, building or other site, or non-residential floor space in order to insure compatibility with adjacent land use and development.

None
