This land:  Has water rights available to it  
 Is dry and has no water rights available to it. If dry, please sign this document and return to the Planning & Zoning Department as part of your application.

**Idaho Code 31-3805** states that when all or part of a subdivision is "located within the boundaries of an existing irrigation district or canal company, ditch association, or like irrigation water deliver entity ... **no subdivision plat or amendment to a subdivision plat or any other plat or map recognized by the city or county for the division of land will be accepted, approved, and recorded unless:**"

- A. The appropriate water rights and assessment of those water rights have been transferred from said lands or excluded from an irrigation entity by the owner; or
- B. The owner filing the subdivision plat or amendment to a subdivision plat or map has provided for the division of land of underground tile or conduit for lots of one acre or less or a suitable system for lots of more than one acre which will deliver water to those land owners within the subdivision who are also within the irrigation entity with the appropriate approvals:
  - 1. For proposed subdivisions located within an area of city impact, both city and county zoning authorities must approve such irrigation system in accordance with 50-the irrigation system.
  - 2. For proposed subdivisions outside of negotiated areas of city impact, the delivery system must be approved by the Planning and Zoning Commission and the Board of County Commissioners with the advice of the irrigation entity charged with the delivery of water to said lands.

## Irrigation Plan Map Requirements

The irrigation plan **must be on a scalable map** and show all of the irrigation system including all supply and drainage structures and easements. Please include the following information on your map:

- All canals, ditches, and laterals with their respective names.
- Head gate location and/or point of delivery of water to the property by the irrigation entity.
- Pipe location and sizes, if any
- Rise locations and types, if any.
- Easements of all private ditches that supply adjacent properties (i.e. supply ditches and drainage ways).
- Slope of the property in various locations.
- Direction of water flow (use short arrows on your map to indicate water flow direction → ).
- Direction of wastewater flow (use long arrows on your map to indicate waste water direction → ).
- Location of drainage ponds or swales, if any where wastewater will be retained on property
- Other information: \_\_\_\_\_

### Also, provide the following documentation:

- Legal description of the property.
- Proof of ownership.
- A written response from the irrigation entity and/or proof of agency notification.
- Copy of any water users' association agreement currently in effect which shows water schedules and maintenance responsibilities.
- Copy of all new easements ready for recording (irrigation supply and drainage).
- If you are in a city area of impact, please include a copy of the approvals by the city planning and zoning commission and city council of your irrigation plan.

### =====Applicant Acknowledgement=====

I, the undersigned, agree that prior to the Planning and Zoning Department accepting this application, I am responsible to have all the required information and site plans.

**I further acknowledge that the irrigation system, as approved by the Planning and Zoning Commission and ultimately the Board of County Commissioners, must be bonded and/or installed prior to the recording of the plat or building permit.**

# VALLEY COUNTY

## WEED CONTROL AGREEMENT

The purpose of this agreement is to establish a cooperative relationship between Valley County and the undersigned Cooperator to protect the natural and economic values in the Upper Payette River watershed from damages related to the invasion and expansion of infestations of noxious weeds and invasive plants. This is a cooperative effort to prevent, eradicate, contain and control noxious weeds and invasive plants on public and private lands in this area. Factors related to the spread of weeds are not related to ownership nor controllable at agency boundaries. This agreement formalizes the cooperative strategy for management of these weeds addressed in Valley County's Integrated Weed Management Plan.

In this continuing effort to control Noxious Weeds, Valley County Weed Control will consult with the undersigned Cooperator and outline weed identification techniques, present optional control methods and recommend proper land management practices.

The undersigned Cooperator acknowledges that he/she is aware of any potential or real noxious weed problems on his/her private property and agrees to control said weeds in a timely manner using proper land management principles.

# IMPACT REPORT (from Valley County Code 9-5-3-D)

You may add information to the blanks below or attach additional sheets.

- ❖ An impact report shall be required for all proposed Conditional Uses.
- ❖ The impact report shall address potential environmental, economic, and social impacts and how these impacts are to be minimized as follows:
  1. Traffic volume, character, and patterns including adequacy of existing or proposed street width, surfacing, alignment, gradient, and traffic control features or devices, and maintenance. Contrast existing with the changes the proposal will bring during construction and after completion, build-out, or full occupancy of the proposed development. Include pedestrian, bicycle, auto, and truck traffic.
  2. Provision for the mitigation of impacts on housing affordability.
  3. Noise and vibration levels that exist and compare to those that will be added during construction, normal activities, and special activities. Include indoor and outdoor, day and night variations.
  4. Heat and glare that exist and that might be introduced from all possible sources such as autos in parking areas, outdoor lights, water or glass surfaces, buildings or outdoor activities.
  5. Particulate emissions to the air including smoke, dust, chemicals, gasses or fumes, etc. both existing and what may be added by the proposed uses.

6. Water demand, discharge, supply source, and disposal method for potable uses, domestic uses, and fire protection. Identify existing surface water drainage, wet lands, flood prone areas and potential changes. Identify existing ground water and surface water quality and potential changes due to this proposal.
  
7. Fire, explosion, and other hazards existing and proposed. Identify how activities on neighboring property may affect the proposed use.
  
8. Removal of existing vegetation or effects thereon including disturbance of wet lands, general stability of soils, slopes, and embankments and the potential for sedimentation of disturbed soils.
  
9. Include practices that will be used to stabilize soils and restore or replace vegetation.
  
10. Soil characteristics and potential problems in regard to slope stability, embankments, building foundation, utility and road construction. Include suitability for supporting proposed landscaping.
  
11. Site grading or improvements including cuts and fills, drainage courses and impoundments, sound and sight buffers, landscaping, fencing, utilities, and open areas.

12. Visibility from public roads, adjoining property, and buildings. Include what will be done to reduce visibility of all parts of the proposal but especially cuts and fills and buildings. Include the affect of shadows from new features on neighboring property.
  
13. Reasons for selecting the particular location including topographic, geographic and similar features, historic, adjoining land ownership or use, access to public lands, recreation, utilities, streets, etc., in order to illustrate compatibility with and opportunities presented by existing land uses or character.
  
14. Approximation of increased revenue from change in property tax assessment, new jobs available to local residents, and increased local expenditures.
  
15. Approximation of costs for additional public services, facilities, and other economic impacts.
  
16. State how the proposed development will impact existing developments providing the same or similar products or services.

17. State what natural resources or materials are available at or near the site that will be used in a process to produce a product and the impacts resulting from the depletion of the resource. Describe the process in detail and describe the impacts of each part.

18. What will be the impacts of a project abandoned at partial completion?

19. Number of residential dwelling units, other buildings and building sites, and square footage or gross non-residential floor space to be available.

20. Stages of development in geographic terms and proposed construction time schedule.

21. Anticipated range of sale, lease or rental prices for dwelling units, building or other site, or non-residential floor space in order to insure compatibility with adjacent land use and development.
