

Outdoor Lighting Dark Sky Compliance

Valley County Code 6-2-5
PURPOSE

The purpose is to promote the health, safety and welfare, the quality of life, and the ability to view the night sky, by establishing regulations and a process for review of exterior lighting.

APPLICABILITY

These standards shall apply to all outdoor lighting including, but not limited to, search, spot, or flood light.

PERFORMANCE STANDARDS

All nonessential exterior commercial and residential lighting is encouraged to be turned off after business hours and/or when not in use. Lights on a timer are encouraged. Sensor activated lights are encouraged to replace existing lighting that is desired for security purposes.

ALL OTHER OUTDOOR LIGHTING SHALL MEET THE FOLLOWING STANDARDS

The height of any light fixture or illumination source shall not exceed thirty feet (30').

All lighting or illumination units or sources **shall be hooded or shielded in a downward direction** so they do not produce glare or cause light trespass on any adjacent lot or real property as depicted in section Valley County Code 6-2-7.

Lights or illumination units shall not direct light, either directly or through a reflecting device, upon any adjacent lot or real property.

Lighting should not illuminate the sky or reflect off adjacent water bodies or produce glare or cause light trespass on any adjacent lot or real property.

All outdoor lights used for parking areas, walkways, and similar uses mounted on poles eight feet (8') or greater in height shall be directed downward. The light source shall be shielded so that it will not produce glare or cause light trespass on any adjacent lot or real property.

The installation of mercury vapor lamps is prohibited.

Flashing or intermittent lights, lights of changing degree of intensity, or moving lights shall not be permitted. This shall not be construed so as to prohibit holiday lights during the holiday season.

Sensor activated lights it is located in such a manner as to prevent glare and lighting onto properties of others or into a public right of way, set to only go on when activated and to go off within five (5) minutes after activation. The lights shall not be triggered by activity off the property.

Uplighting for flags is allowed provided the flag is of a government and the maximum lumen output is 1300 lumens. Flags are encouraged to be taken down at sunset to avoid the need for lighting. LED lighting shall not exceed 3000 degrees Kelvin.
