Irrigation Plan (Idaho Code 31-3805)

	(Idano Code 31-3003)
	This land: Has water rights available to it Is dry and has no water rights available to it.
ex su	aho Code 31-3805 states that when all or part of a subdivision is "located within the boundaries of an isting irrigation district or canal company, ditch association, or like irrigation water deliver entity no bdivision plat or amendment to a subdivision plat or any other plat or map recognized by the city county for the division of land will be accepted, approved, and recorded unless:"
Α.	The appropriate water rights and assessment of those water rights have been transferred from said lands or excluded from an irrigation entity by the owner; or
B.	The owner filing the subdivision plat or amendment to a subdivision plat or map has provided for the division of land of underground tile or conduit for lots of one acre or less or a suitable system for lots of more than one acre which will deliver water to those landowners within the subdivision who are also within the irrigation entity with the appropriate approvals:
	1. For proposed subdivisions located within an area of city impact, both city and county zoning authorities must approve such irrigation system.
	2. For proposed subdivisions outside of negotiated areas of city impact, the delivery system must be approved by the Planning and Zoning Commission and the Board of County Commissioners with the advice of the irrigation entity charged with the delivery of water to said lands (e.g., irrigation district).
ad in	better understand your irrigation request, we need to ask you a few questions. Additional pages can be ded. A list of the map requirements follows the short questionnaire. Any missing information may result the delay of your request before the Planning and Zoning Commission and ultimately the approval of ur irrigation plan by the Board of County Commissioners as part of final plat approval.
1.	Are you within an area of negotiated City Impact? Yes No
	What is the name of the irrigation district/company and drainage entities servicing the property? Irrigation:
	Drainage:
3.	How many acres is the property being subdivided?
4.	What percentage of this property has water?
5.	How many inches of water are available to the property?
6.	How is the land currently irrigated? □ surface □ sprinkler □ irrigation well □ above ground pipe □ underground pipe
7.	How is the land to be irrigated after it is subdivided? □ surface □ sprinkler □ irrigation well □ above ground pipe □ underground pipe
8.	Describe how the head gate/pump connects to the canal and irrigated land and where ditches &/or pipes go.
9.	Is there an irrigation easement(s) on the property? \square Yes \square No

How do you plan to retain storm and excess water on each lot?
How do you plan to process this storm water and/or excess irrigation water prior to it entering the established drainage system? (i.e. oil, grease, contaminated aggregates)
Irrigation Plan Map Requirements
The irrigation plan <u>must be on a scalable map</u> and show all of the irrigation system including all supply and drainage structures and easements. Please include the following information on your map:
 All canals, ditches, and laterals with their respective names. Head gate location and/or point of delivery of water to the property by the irrigation entity. Pipe location and sizes, if any Rise locations and types, if any.
 ☐ Easements of all private ditches that supply adjacent properties (i.e. supply ditches and drainage ways). ☐ Slope of the property in various locations. ☐ Direction of water flow (use short arrows on your map to indicate water flow direction →).
 □ Direction of wastewater flow (use long arrows on your map to indicate wastewater direction □ Location of drainage ponds or swales, if any where wastewater will be retained on property □ Other information:
Also, provide the following documentation:
 □ Legal description of the property. □ Proof of ownership.
☐ A written response from the irrigation entity and/or proof of agency notification.
 Copy of any water users' association agreement which shows water schedules and maintenance responsibilities.
\square Copy of all new easements ready for recording (irrigation supply and drainage).
☐ If you are in a city area of impact, please include a copy of the approvals by the city planning and zoning commission and city council of your irrigation plan.
======================================
I, the undersigned, agree that prior to the Planning and Zoning Department accepting this application, I am responsible to have all the required information and site plans.
I further acknowledge that the irrigation system, as approved by the Planning and Zoning Commission and ultimately the Board of County Commissioners, must be <u>bonded</u> and/or <u>installed</u> prior to the recording of the plat or building permit.
Signed: Date:/

VALLEY COUNTY WEED CONTROL AGREEMENT

It shall be the duty and responsibility of all landowners to control noxious weeds on their land and property, in accordance with Idaho Statute 22-2407.

The purpose of this agreement is to establish a cooperative relationship between Valley County and the undersigned Cooperator to protect the natural and economic values in the Upper Payette River watershed from damages related to the invasion and expansion of infestations of noxious weeds and invasive plants. This is a cooperative effort to prevent, eradicate, contain and control noxious weeds and invasive plants on public and private lands in this area. Factors related to the spread of weeds are not related to ownership nor controllable at agency boundaries. This agreement formalizes the cooperative strategy for management of these weeds addressed in Valley County's Integrated Weed Management Plan.

In this continuing effort to control Noxious Weeds, Valley County Weed Control will consult with the undersigned Cooperator and outline weed identification techniques, present optional control methods and recommend proper land management practices.

The undersigned Cooperator acknowledges that he/she is aware of any potential or real noxious weed problems on his/her private property and agrees to control said weeds in a timely manner using proper land management principles.

Valley County Weed Department can be contacted at 208-382-7199.

IMPACT REPORT (from Valley County Code 9-5-3-D)

You may add information to the blanks below or attach additional sheets.

- ❖ An impact report shall be required for all proposed Conditional Uses.
- ❖ Answer all questions. Mark N/A if the question is not applicable to your application.
- ❖ The impact report shall address potential environmental, economic, and social impacts and how these impacts are to be minimized as follows:
- 1. Traffic volume, character, and patterns including adequacy of existing or proposed street width, surfacing, alignment, gradient, and traffic control features or devices, and maintenance. Contrast existing with the changes the proposal will bring during construction and after completion, build-out, or full occupancy of the proposed development. Include pedestrian, bicycle, auto, and truck traffic.
- 2. Provision for the mitigation of impacts on housing affordability.
- 3. Noise and vibration levels that exist and compare to those that will be added during construction, normal activities, and special activities. Include indoor and outdoor, day and night variations.
- 4. Heat and glare that exist and that might be introduced from all possible sources such as autos in parking areas, outdoor lights, water or glass surfaces, buildings or outdoor activities.
- 5. Particulate emissions to the air including smoke, dust, chemicals, gasses, or fumes, etc., both existing and what may be added by the proposed uses.
- 6. Water demand, discharge, supply source, and disposal method for potable uses, domestic uses, and fire protection. Identify existing surface water drainage, wetlands, flood prone areas and potential changes. Identify existing ground water and surface water quality and potential changes due to this proposal.

7.	Fire, explosion, and other hazards existing and proposed. Identify how activities on neighboring property may affect the proposed use.
8.	Removal of existing vegetation or effects thereon including disturbance of wetlands, general stability of soils, slopes, and embankments and the potential for sedimentation of disturbed soils.
9.	Include practices that will be used to stabilize soils and restore or replace vegetation.
10.	Soil characteristics and potential problems in regard to slope stability, embankments, building foundation, utility and road construction. Include suitability for supporting proposed landscaping.
11.	Site grading or improvements including cuts and fills, drainage courses and impoundments, sound and sight buffers, landscaping, fencing, utilities, and open areas.
12.	Visibility from public roads, adjoining property, and buildings. Include what will be done to reduce visibility of all parts of the proposal but especially cuts and fills and buildings. Include the impacts of shadows from new features on neighboring property.
13.	Reasons for selecting the particular location including topographic, geographic and similar features, historic, adjoining land ownership or use, access to public lands, recreation, utilities, streets, etc., in order to illustrate compatibility with and opportunities presented by existing land uses or character.

14. Approximation of increased revenue from change in property tax assessment, new jobs available t local residents, and increased local expenditures.
15. Approximation of costs for additional public services, facilities, and other economic impacts.
16. State how the proposed development will impact existing developments providing the same or similar products or services.
17. State what natural resources or materials are available at or near the site that will be used in a process to produce a product and the impacts resulting from the depletion of the resource. Describe the process in detail and describe the impacts of each part.
18. What will be the impacts of a project abandoned at partial completion?
19. Number of residential dwelling units, other buildings and building sites, and square footage or gros non-residential floor space to be available.
20. Stages of development in geographic terms and proposed construction time schedule.
21. Anticipated range of sale, lease or rental prices for dwelling units, building or other site, or non-residential floor space in order to insure compatibility with adjacent land use and development

Property Tax Exemption

New and expanding business <u>may</u> qualify for a property tax exemption for up to 5 years by meeting the qualifications in accordance with Idaho Code§ 63-602NN

Application must be filed with the Valley County Assessor's office before construction begins.

Protocols for qualifying property exemption in Valley County, Idaho:

- Application must be received prior to the start of construction (ex. Building Permits, excavation)
- Term of exemption, not to exceed 5 years, will be up to the discretion of the Valley County Board of Commissioners
- Retail sales business do not qualify
- Multi use may qualify excluding retail sale area
- Housing
 - Multi-family housing must have 5 units or more per structure.
 - Multi-Family housing units may qualify if more than one structure is built totaling
 5 or more units
 - For local housing only (workforce)
 - Short term rentals not allowed
 - Units cannot be individually sold (e.g., no condominiums)
- Remodel and/or additions to existing businesses
 - Only the area of remodel/addition may qualify for exemption
 - Retail sales additions/remodel will not qualify

For further information regarding the 63-602NN application process and instructions, please contact the Valley County Assessor's office at 208-382-7126.
